

rotuner

SIT TO STAND PIVOT TRANSFER DEVICE

The **Rotuner** is a sit-to-stand transfer aid that makes mobility safer and easier for users and caregivers. Its stable frame, multiple hand placement options, and anti-tip features provide support during transfers and rehabilitation, reducing the risk and fear of falling.

- **Single Caregiver Transfer**

Reduces the physical strain on caregivers by turning two-person transfers into single-caregiver operations.

- **Fall Prevention**

Provides a secure, encompassing frame to minimize the risk of falls during movement.

- **Rehabilitation and Recovery**

Supports physical therapy exercises like sit-to-stand practice, leg strengthening, kickbacks, and stability exercises.

Key Features

Rotuner

Designed for people of all heights weighing up to 550 lbs (250 kg).

MULTIPLE HAND PLACEMENTS

Distinct hand placement options provide flexibility and comfort.

LOCK RELEASE

Easily operated, used to unlock and rotate the device.

KNEE SUPPORT

The knee pad provides support when standing on the device.

ANTI-TIP WINGS

The anti-tip wings offer enhanced stability, ensuring the device remains secure and won't tip over.

Bariatric

Designed for larger users to fit more comfortably in the wider frame.
Weight capacity: 550 lbs (250 kg).

**Manufactured in
St. Catharines,
Ontario Canada.**
